SUBSIDIARY BODY FOR IMPLEMENTATION

Twenty-fifth session

Nairobi, 6–14 November 2006

Agenda Item 11

Capacity-building under the Kyoto Protocol

Capacity-building under the Kyoto Protocol

Draft conclusions proposed by the Chair

1. The Subsidiary Body for Implementation (SBI) welcomed the report by the secretariat on activities being implemented to support capacity-building in developing countries (FCCC/SBI/2006/16).
2. The SBI noted the efforts in capacity-building by Parties and various organizations in response to decision 29/CMP.1, and expressed strong support for the inclusion of information and outcomes of those activities in monitoring of the capacity-building framework for developing countries contained in the annex to decision 2/CP.7.
3. The SBI welcomed the value of sharing best practices and lessons of the first informal designated national authorities forum of the clean development mechanism (CDM) which was convened in Bonn, Germany, in October 2006.
4. The SBI noted the relevant sections of the report of the Executive Board of the CDM related to regional distribution of CDM project activities and related capacity-building.
5. The SBI welcomed the meeting held in Nairobi, Kenya, and organized by United Nations agencies¹ and other key organizations² to develop a coherent approach to capacity-building for CDM activities for the African region, but recognized the need to also address the special needs of least developed countries and small island developing States.
6. The SBI decided to recommend a draft decision on this matter for adoption by the Conference of the Parties serving as the Meeting of the Parties to the Kyoto Protocol at its second session (for the text of the decision, see FCCC/SBI/2006/L.34/Add.1).

¹ United Nations Development Programme, United Nations Environmental Programme and the UNFCCC Secretariat.

² The World Bank Group and African Development Bank.
