Paint for the Planet exhibit	<p>“Paint for the Planet” is a UNEP exhibit of children's art that launched the United Nations campaign "UNite to Combat Climate Change" in New York in October 2008. The paintings are drawn from the UNEP International Children's Painting Competition and showcase children's fears and hopes for the planet. The paintings are on show in the central corridor between Hall 15 and Halls 7/8. The exhibit's theme is also captured in the “UNite to Combat Climate Change” banner hanging above the Climate Change Kiosk.</p>
Credentials	<p>“Credentials of representatives, alternate representatives and advisers shall be issued either by the Head of State or Government or by the Minister for Foreign Affairs.” Delegations are kindly requested to present the corresponding letters of credentials to the External Relations team in the Conference Affairs office, located in Hall 15B.</p>
Delegation nameplates	<p>Delegates are kindly requested not to remove country nameplates from the meeting rooms. The secretariat is unable to replace these at short notice and this can lead to serious disruptions at meetings.</p>
Pigeonholes for delegates	<p>Pigeonholes for the distribution of official documents and messages, which delegates are kindly requested to check at regular intervals, are located in Hall 15B. Participants are requested to refrain from distributing non-official material via the pigeonholes.</p>
Security	<p>Participants should ensure that they wear their conference badge in full view at all times, as the security officers may request them to verify their identity. This may lead to some inconvenience at times, but it is expected that participants will understand the need for such arrangements.</p>
Lost and found items	<p>Participants are reminded not to leave personal belongings in meeting rooms. Documents left in meeting rooms and on unattended desks will be removed. The Security office, located in Hall 15A, is responsible for lost and found items.</p>
Information for participants	<p>A booklet on the facilities available at the conference venue, entitled “Information for participants” is available from the Information desk in Hall 15B and also on the COP 14 website.</p>

...inSide climate change publications counter	Participants wishing to distribute documents should contact staff of the Observer Organizations Liaison team on the third floor of Hall 14B. The ...inSide climate change publications counter is located in Hall 15B. Posters and flyers relating to side events may be affixed to the Poster boards available at prominent locations around the conference venue.
Meditation room	A room for meditation and prayer is available to participants on demand. Please contact staff at the Information desk in Hall 15B.
Facilities for non-governmental organizations	Offices for the business and industry organizations (BINGOs), environmental groups (ENGOs), indigenous peoples organizations (IPOs), local government and municipal authorities (LGMAs), research and independent NGOs (RINGOs), and the trade union NGOs (TUNGOs) are located in Hall 14B on the first floor.

Host Country Pavilion – Technologies for Climate Protection Exhibition

The Government of Poland's exhibition in Hall 5 is open to all participants and to the public and showcases 120 of the most innovative technological devices and installations that can help combat climate change. The exhibition is organized in five thematic areas: energy saving, renewable energy sources, environmental friendly transport and adaptation to climate change.

	Theme	Organizer
10.00– 11.50	Metropolitan elevated rail transportation system	MISTER Sp. z o.o.
13.00– 15.00	Bionic Tower skyscraper project / energy-efficient trends	Speaker Mr. Tomasz Piwiński
15.00– 16.00	Efficient, innovative watercraft propulsion systems for a better tomorrow	Delta Prototypes, Krakow Technology Park

17.00– 17.50	Concept of material efficiency using stone composite technology (SCT)	TechnoCarbon Technologies
18.00– 18.50	Role of land management in climate policy: calculating farm and estate emissions, and the scope for adaptation and mitigation	European Landowners Organisation

European Union Pavilion

The EU Pavilion is located in Hall 9.

10.30– 12.30	<p>PRECIS: enhancing potential to build capacity for climate change mitigation and adaptation</p> <p>The PRECIS regional climate modelling system contributes to a key objective of the Nairobi Work Programme, "promoting development of, access to, and use of information on projected climate change". Recent developments and outputs from the Programme will be presented and feedback on enhancing its potential invited.</p>	United Kingdom Met Office Hadley Centre for Climate Change	Chopin
10.30– 12.30	<p>Towards integrated adaptation and mitigation measures in agriculture</p> <p>The role of agriculture in the mitigation of climate change has traditionally been neglected. This event will discuss the possible synergies and trade-offs of mitigation and adaptation measures in agriculture, as well as how to mobilize stakeholders and enhance cooperation between Asian and European countries.</p>	Slovenia Mr. Andrej Kranjc andrej.kranjc@gov.si +38 64 061 8077	Rubinstein
13.00– 15.00	<p>Delivering effectively on climate change: the experience and perspectives of bilateral development banks</p> <p>The bilateral development agencies AFD, JICA and KfW have solid experience in financing projects generating both development and climate benefits. This session will look at the identification and promotion of good practice, coordination of activities and contribution to the shared vision of long-term cooperative action.</p>	French Development Agency (AFD) / KfW / JICA	Chopin
13.00– 15.00	<p>Scenario packages for future international climate change policy</p> <p>The Institute of Development Studies at the University of Sussex, UK; Margaree Consultants, Canada; and Ecofys, Germany/The Netherlands have developed a possible package for a new international agreement on climate change. The package, which will be presented at this session, combines all main schools of thought as a possible compromise. It is intended to stimulate open discussion on a future climate change regime.</p>	UK and Ecofys	Rubinstein

15.30– 17.30	<p>Balancing the carbon market How can the balance in the CDM be improved for sustainable development, regional distribution and atmospheric benefits? This event will examine the political and market implications of CDM differentiation among countries and technologies, and options for reaching the 2 °C global warming target with market mechanisms that include a net contribution to mitigation.</p>	Energy Research Centre of the Netherlands (ECN)	Chopin
15.30– 17.30	<p>Invention and transfer of climate change mitigation technologies: a study drawing on patent data This event will present and discuss the results of a study which describes the geographic distribution of innovation in climate mitigation technologies and their international diffusion between 1978 and 2003. The database includes 270,000 patents related to 13 climate-friendly technologies with high GHG abatement potential (renewables, cement, lighting, insulation, fuel injection, methane destruction and CCS) filed in 81 countries.</p>	French Development Agency (AFD), Mines Paris Tech and OECD	Rubinstein
18.00– 20.00	<p>Initial findings of a European Commission study on sectoral approaches The Centre for Clean Air Policy-Europe (CCAP) is leading a European Commission-funded study on sectoral approaches. The study team will report initial findings and outline a proof of concept of how sectoral approaches could contribute to a future global climate agreement. This will be followed by a panel discussion. The event concludes with a cocktail reception.</p>	European Commission, DG Enterprise and CCAP	Chopin
18.00– 20.00	<p>Research on vulnerability, impacts and adaptation to climate change in Central and Eastern Europe Project results from the EU framework programme for research will be presented, addressing climate change impacts, and vulnerability and adaptation measures. The geographical focus will be on Central and Eastern Europe. Presentations will address, among other things, the increasing likelihood of extreme weather, impacts on agriculture, water resources and forestry, and socio-economic aspects.</p>	European Commission, DG Research	Rubinstein

Carbon Finance

For the fourth year running, the International Emissions Trading Association (IETA) holds its Carbon Finance event, which will take place in Hall 12.

11.30–13.00	<p>Introduction to CDM/JI: insight into the project cycle and CER/ERU use</p> <p>This session will provide an introduction to the main principles of the CDM and JI. It will provide participants new to the carbon market with an overview of the basic concepts and principles needed to understand the use of JI and the CDM and its potential for their business.</p>	<p>Speakers:</p> <p>Mr. James Grabert, UNFCCC Mr. Arnaud Viel, EcoSecurities Ms. Maureen Mo, Camco Global Mr. Siddharth Yadav, SGS Mr. Benoit Leguet, Caisse des Depots</p>	Futures Room
11.30–13.00	<p>Emissions trading and carbon finance: what are their roles and differences?</p> <p>Emission trading has seen a lot of criticism recently; some argue that the ETS is just another excuse for making billions while not undertaking any serious abatement measures. This session will provide the basic elements of emission trading and let participants experience how carbon finance channels investment flows into tangible projects.</p>	<p>Speakers:</p> <p>Mr. Peter Zaman, Clifford Chance Mr. Martin Berg, Merrill Lynch Mr. Ben Lashkari, Swiss RE</p>	Options Room
13.00–14.30	<p>State and future of the carbon market</p> <p>The global carbon market continues to grow in leaps and bounds, but with post 2012 discussions moving forward it is time to consider the impact a new framework will have on the market. This session will look at the market to date and discuss where we would like to see the market going in the future.</p>	<p>Speakers:</p> <p>Lasse Ringius, World Bank Mr. Mark Meyrick, Constellation Commodities Group Mr. Michael Rumberg, Noble Carbon Mr. Eliano Russo, ENEL Mr. Greg Dunne, ICECAP Ltd</p>	Futures Room
15.00–16.30	<p>Financing with carbon assets</p> <p>Various emission reduction units are currently traded in the market and used to finance GHG projects. This side event will look at the ways that carbon assets are or can be used in bringing about GHG reductions.</p>	<p>Speakers:</p> <p>Mr. Peter Zaman, Clifford Chance Mr. Gareth Phillips, Syndicatum Carbon Capital Mr. Ben Laskari, SwissRe Mr. Gautier Quéru, Natixis Dinesh Babu, IDEACarbon</p>	Futures Room
15.00–16.30	<p>VVManual – creating understanding within the CDM</p> <p>The new Validation & Verification Manual (VVManual) is designed to improve the performance of the DOEs in assessing CDM projects, whilst at the same time providing an inside perspective to the project developers on what is required within the CDM. This side event will outline the basics of the VVManual and discuss how and under which circumstances it can help project developers understanding the requirements of the CDM.</p>	<p>Speakers:</p> <p>Mr. Javier Castro, TÜV SÜD Mr. Conor Barry, UNFCCC Mr. Leo Perkowski, AES Climate Solutions Mr. Siddharth Yadav, SGS Mr. Werner Betzenbichler, Syndicatum Carbon Capital</p>	Options Room

16.30– 18.00	<p>EU ETS Phase III: road-testing the engine of demand</p> <p>The negotiations on the review of the EU ETS have reached a crucial stage and may be finalized by the end of the year. What are the lessons learned from Phase I and Phase II, and what will be the implications for the markets and industry of the modifications proposed in Phase III? Will the revised EU ETS still be the main engine behind the growth in the CDM-JI market?</p>	<p>Speakers:</p> <p>Mr. Alexandre Marty, ICF Mr. Miles Austin Ecosystems Mr. Russel Mills, Dow Chemical Mr. Mark Meyrick, Constellation, Mr. Bill Kyte, Eurelectric</p>	Futures Room
16.30– 18.00	<p>Implementing REDD with confidence</p> <p>Based on the current experience and discussions on REDD can we feel confident that the implementation can be done with confidence? Experts will debate the current proposals and discuss how to integrate REDD into the current GHG market mechanisms.</p>	<p>Speakers:</p> <p>Mr. Martin Schroeder, TÜV SÜD Ms. Jenny Henman, Green Resources Mr. Valentin Bellassen, Caisse des Depots Mr. Johannes Ebeling, EcoSecurities Mr. Martin Berg, Merrill Lynch Commodities (Europe) Limited</p>	Options Room
18.00– 19.30	<p>The role of the CDM and JI in a post-2012 regime</p> <p>Over the next 12 months different proposals for the post-2012 framework will be presented and discussed. Although it is expected that both CDM and JI will still play a role in a new post 2012 framework, it is unclear whether they could continue in their current forms or will need to be changed significantly to fit in the post-Kyoto world.</p>	<p>Speakers:</p> <p>Ms. Amy Merrill, Linklaters Mr. Benoit Leguet, Caisse des Depots Mr. Bruno Vanderbrocht, Holcim Mr. Greg Dunne, ICECAP Ltd Lu Xuedu, Office of Global Environmental Affairs Ministry of Science and Technology of PR China</p>	Futures Room
