Addressing priority capacity building needs: Key reflections from A6IP engagement with partner countries

Understanding of Article 6 technicalities remains the greatest expressed capacity-building need:

- **Early preparation of initial reports** helps promote understanding through real-world application and ensure alignment with Article 6 rules.
- **Sharing of good practices and peer-to-peer learning** enables countries to leverage experience and accelerate progress.

There is a need for more Article 6 projects on the ground:

- Engaging stakeholders to identify **the country's mitigation potential and priorities** helps accelerate project initiations and aligns investments with the country needs.
- **Streamlining and simplifying** national Article 6 processes is crucial for smooth and effective implementation.
