

"ARTICLE 6 AMBITION DIALOGUE DAY 2 – SESSION 2 CAPACITY BUILDING"

Cristina Figueroa
Ministry of Environment

CHILE CONTEXT AND IMPLEMENTATION EXPERIENCE

STATE OF ART OF ART 6 IN CHILE

24th August
CMSyCC
National
Article 6
Framework

SWITZERLAND - 2023

- 18 PRIOR CONSIDERATION
– 13 LETTERS OF INTEREST

- 2 ACTIVITY
AUTHORIZATION REQUEST
- ADMISSIBILITY CHECK
 - 1) Electromobility
 - 2) Diesel to biomass boiler replacement

JAPAN –
2015/2025

- 17 PROJECTS ACCEPTED
UNDER DE JCM
- CHALLENGES: agreement
alignment with article 6 /
activities and
methodologies

SINGAPORE - 2025

- International Standard and
methodologies recognition

ARTICLE 6.4 - PACM

- PARTICIPATION
REQUIREMENTS: defining
negative list for activities
and methodologies
- TRANSITION +
AUTHORIZATION/NO
AUTHORIZATION: 43
transition request (3 PoA,
1 of them 40+ projects)
- PRIOR CONSIDERATION:
20+

IMPLEMENTATION OF ART 6 IN CHILE

TRANSPARENCY

- INTERMINISTERIAL WORK FOR REPORTING: National Inventories, National Prospective System, NDC, BTR, MRV

GOVERNANCE

- INTERMINISTERIAL WORK FOR DECISIONS (Committee): Mitigation measures for NDC, authorization – corresponding adjustment

FRAMEWORKS

- CLIMATE CHANGE FRAMEWORK LAW
- ARTICLE 6 NATIONAL FRAMEWORK: criteria for activities beyond NDC – Infrastructure – procedures - governance

INFRAESTRUCTURE

- NATIONAL GUIDELINES AND PROCEDURES FOR EVALUATION
- NATIONAL REGISTRY AND PLATFORM

WHAT CAPACITY BUILDING NEEDS DO WE SEE?

What are the key focus areas of capacity-building support, and what are the main considerations in programme design?

What is the most urgent capacity-building needs related to Article 6.2 implementation?

Simple guidance to understand Article 6 Rulebook – allows to replicate and generate new capacities

How to avoid overselling and ensure NDC compliance: criteria for selection of activities or/and negative list

Support with guidance to create a national framework to implement the mechanism
Understanding of environmental integrity and how to assess it

Knowledge Sharing platforms: Host countries, + developers, + international standards

Are there any examples of collaboration between capacity-building programmes or initiatives? What synergies can be expected from such cooperation?

Generate spaces for knowledge sharing in different levels: host countries, + project developers, + international standards, among others. * Focus on similar cases

Beyond events and workshops: go to peer to peer or focused roundtables

- **Chilean framework:** national experience on markets, implementation agreements, Latin countries experiences, civil society and developers experience
- **Registries:** conversation with countries already on process of implementation, international organizations

- **RCC-CPA-SPAR6C:** Exercise with examples to define what is beyond the NDC
- **Online learning:** new capacity
- **A6IP – Registry Forum – Manuals for reporting**
