

16th meeting of the Adaptation Committee

Agenda item 4 (b)

Guidance to the Nairobi work programme on impacts, vulnerability and adaptation to climate change

Report from a representative of the Nairobi work programme

Bonn, Germany, 9 September 2019

Presentation outline

- An overview of information contained in the Adaptation Knowledge Portal;
- An overview of engagement of partners in the work of the NWP;
- Information on how work of NWP partners can be mapped or tracked;
- Latest on the Lima Adaptation Knowledge Initiative (LAKI)

Overview of information in the AKP

#1

OPEN KNOWLEDGE HUB
ADAPTATION TOOLS
MULTI-MEDIA RESOURCES
TRAINING MATERIALS
CASE STUDIES

28 Others

37 Online Portals

60 Technical Documents/Reports

195 NWP Action Pledges

297 Tools

405 Case Studies

ACCESS FREE TOOLS AND RESOURCES

United Nations
Framework Convention on
Climate Change

NETWORK**

Overview of information in the AKP

#3 DIRECT GATEWAY

Entry points for engagement in the work of the NWP:

- Mandated activities under the NWP
- Knowledge resources for the AKP
- eUpdate
- Calls for submissions

Network of 380 plus partners, Parties and other relevant experts

UNFCCC–knowledge resources

- NWP
- Adaptation Committee
- Loss and Damage (WIM)

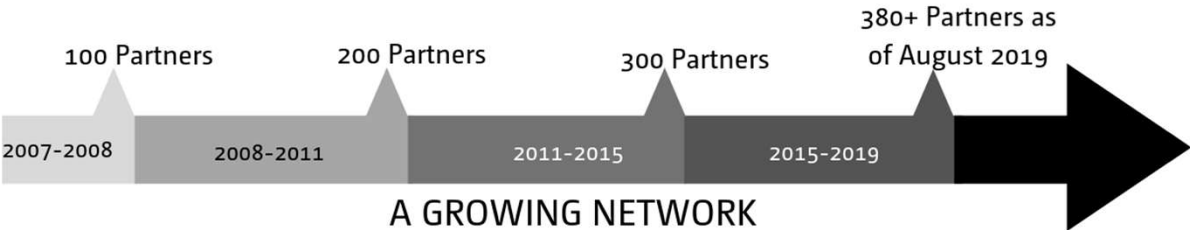

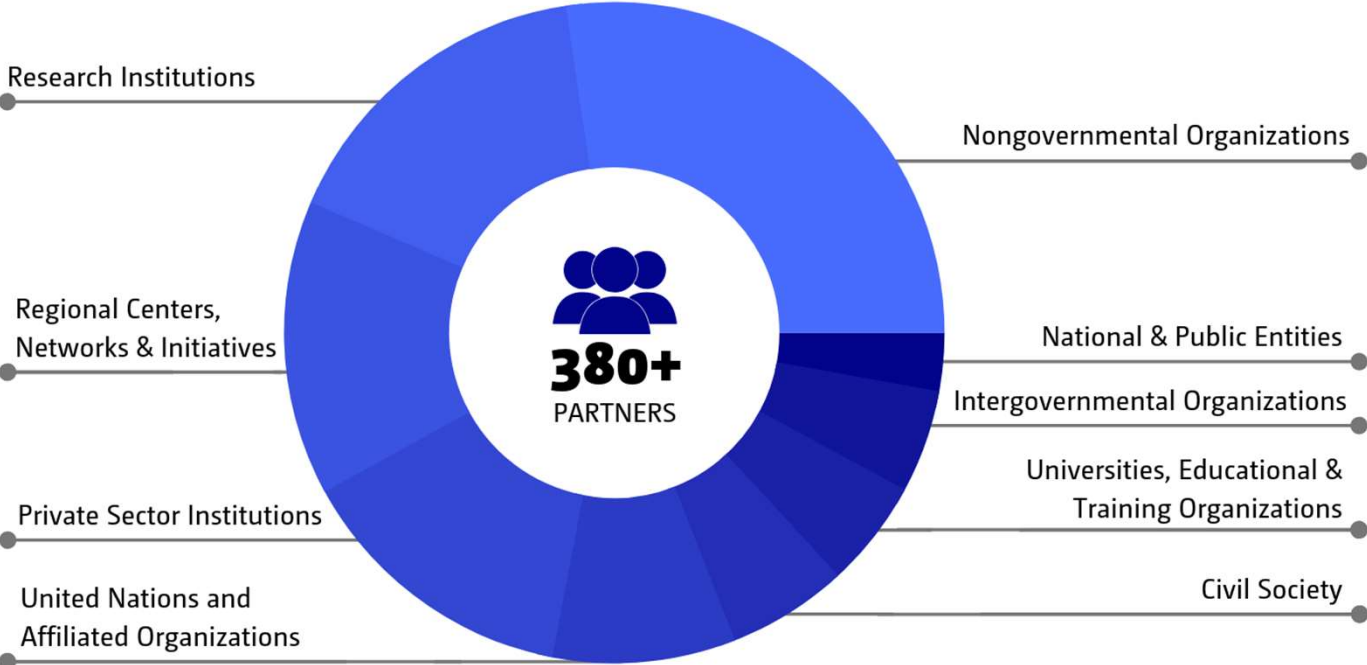

Enhancing the user-experience of the AKP

- ❖ **Solicit feedback from the mandated survey** on the accessibility, applicability and clarity of the NWP knowledge products (including on the AKP) (Can the AC respond to the survey?)

 - ❖ **Considerations for future**
 - **Validated, robust content** of the AKP (e.g. expert groups?)
 - **Up-to-date knowledge hub** (e.g. knowledge resources of the AKP to be updated on a periodic basis by contributors as well up-to-date knowledge resources added to the AKP)
 - Knowledge resources **catered to different knowledge users** (e.g. language, format of the knowledge products)
 - **User-interface** of the AKP site (e.g. more visibility, ..)
-

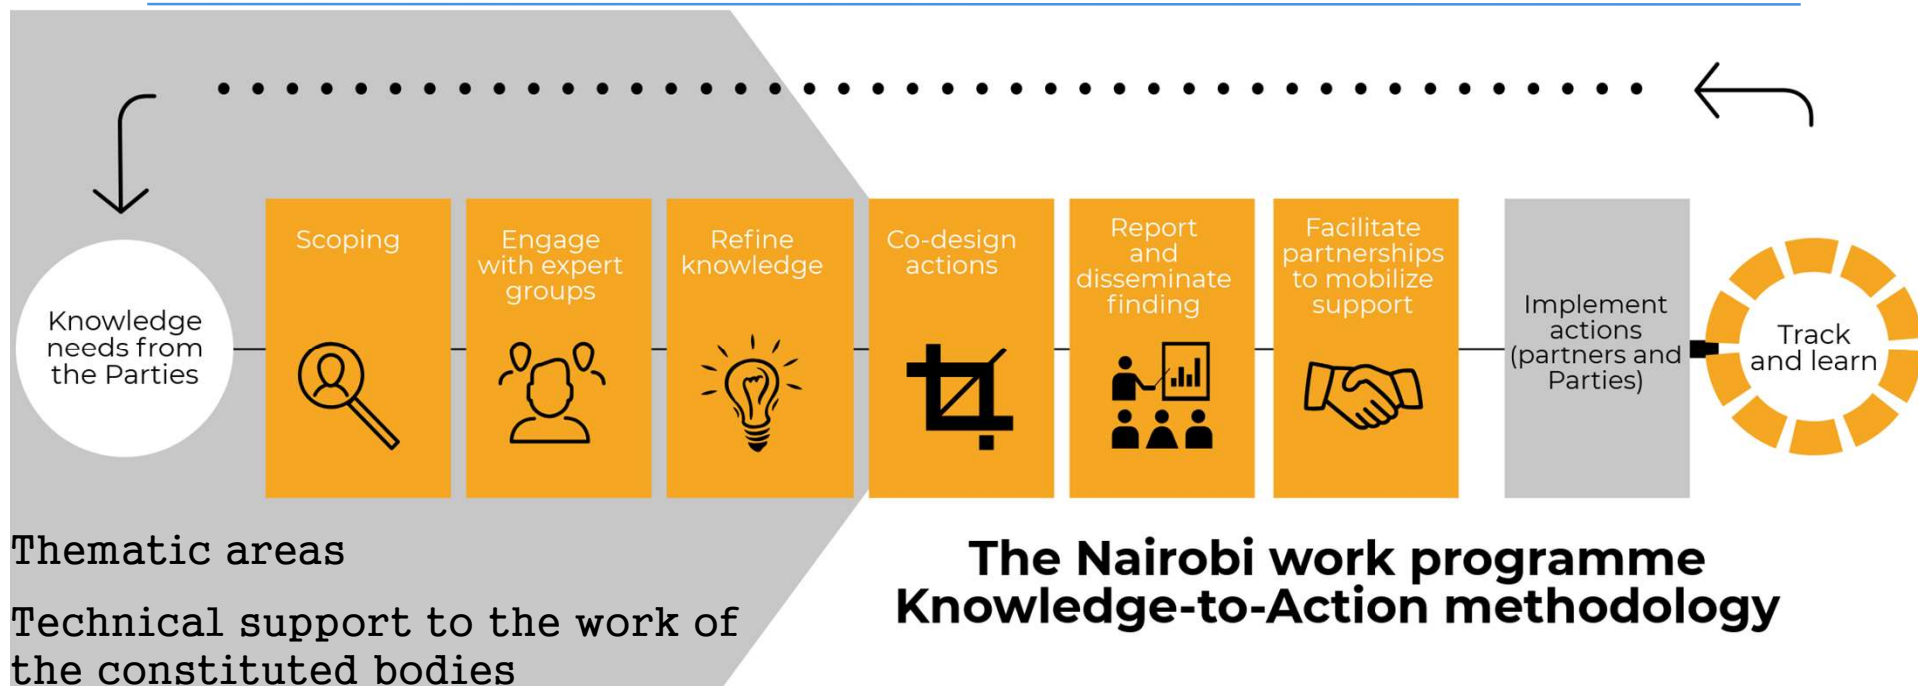

Partners' engagement in the work of the NWP

A GROWING NETWORK
closing critical knowledge gaps &
advancing innovative and effective adaptation and resilience

Partners' engagement in the work of the NWP

- Expert working groups
- Knowledge products (co-design/deliver; provide inputs; review and provide feedback)
- Joint events (co-design/deliver; provide inputs; technical expert role)
- Knowledge resources in the Adaptation knowledge portal
- Submissions to the NWP

Mapping or tracking work of the NWP partners

❖ Current approach

- **Progress report** – specific to engagement of partners in the work of the NWP such as thematic areas, LAKEI as well as dissemination through the AKP)
- **Action pledges** – specific to engagement of the NWP partners beyond the work of the NWP (challenges: voluntary, not all partners submit action pledges and/or update action pledges; not systematic; NWP partners' work is very diverse)

❖ How can the work of the NWP partners (beyond engagement in the work of the NWP) be better mapped or tracked in future?

- Solicit feedback from Parties and NWP partners on information (e.g. content, level of information, frequency for providing input, format) that is relevant for mapping/tracking – **use feedback to devise such mapping tool/approach**
-

Update on the Lima Adaptation Knowledge Initiative (LAKI)

- ❖ Two objectives
 - **Bridge priority knowledge gaps** (e.g. partnership with University of Michigan; ICIMOD)
 - **Scale up to reach new subregions**
