Any questions?

Engagement between the Supervisory Body and stakeholders

Objectives for engagement with stakeholders

Objectives

Ensure transparency in the decision-making

Support the SB in identifying the needs for the development of the specific regulatory areas to enhance objectivity and clarity, and ensure environmental integrity

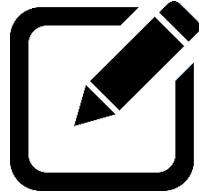

Allow the SB to understand the problems and challenges from stakeholders as well as practical needs

Enhance the stakeholders' understanding of the Article 6.4 rules, thus improving the overall efficiency of the system

Possibilities for engagement with the SB

Call for written comments to issues on the agenda for each SB meeting

Specific letters to the SB and/or questions to the secretariat

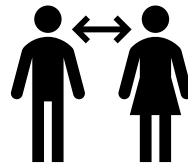

Call for written input to specific matters of the work of the SB

Interaction outside of the meetings (side events, webinars, etc.)

Interaction between observers and SB at each meeting
