| <b><u>Area of discussion 1 - Technology options and trends in decarbonizing industries, drawing on national and regional experience - Breakout Sessions</u></b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                           |
| <p>The breakout sessions will build upon the themes and issues highlighted during the scene-setting presentations and panel discussion on technology options and trends, for decarbonization in industries, drawing on national and regional experience. Participants will engage in sharing best practices and solutions with a view to exploring key aspects for mitigation action in industries drawing on national and regional experience. Further details on the breakout session round will be communicated in due course.</p> <p>The breakout sessions will be organized in two consecutive rounds, with two groups convening in parallel during each round. Each of the two breakout groups will focus on a distinct thematic area, drawn from the preceding scene-setting presentations and panel discussions. Participants will stay in the same room through the breakout sessions. After the first breakout discussion, facilitators will rotate to the other room. This approach will allow all participants to participate in both breakout discussions and contribute to both themes. Each round of discussion will run for approximately 80 minutes with a short break in between to allow facilitators to switch between breakout rooms. Facilitators will keep time and inform about the program. During the breakout discussion participants will have an opportunity for interactive engagement.</p> <p>Guiding questions for breakout groups:</p> <p><b><u>Theme 1: Experiences of best practices and lessons learned</u></b></p> <ul style="list-style-type: none"><li><i>What technology options and solutions have been successfully applied in your country or region to advance decarbonization of industries, and what best practices and lessons have emerged from their deployment?</i></li><li><i>What opportunities exist, from your national or regional experience, for the development, adoption, scaling-up or implementation of decarbonization of industries in practice and what has supported their uptake in practice?</i></li></ul> <p><b><u>Theme 2: Experiences of addressing challenges and barriers</u></b></p> <ul style="list-style-type: none"><li><i>What challenges and barriers have been encountered in the development, adoption, scaling-up or implementation of technologies in decarbonization of industries in your country or region such as long lifecycles of industrial plants, technology maturity, advancing innovation and the need of breakthrough technologies among others?</i></li><li><i>Based on your national or regional experience, what approaches have helped address these challenges and barriers in practice?</i></li></ul> |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                           |
| 14:10 – 15:40                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | <p><i>Breakout Group 1 - Conference Hall</i></p> <p><b>Theme 1 – Experiences of best practices and lessons learned</b></p> <p><b>Keynote ice-breaker intervention: Amanda McKee</b>, Director, Knowledge and Learning, NDC Partnership</p> | <p><i>Breakout Group 2 – Seminar Room 1</i></p> <p><b>Theme 2 – Experiences of addressing challenges and barriers</b></p> <p><b>Keynote ice-breaker intervention: Gyoorie Kim</b>, Diplomacy Lead, Solutions for Our Climate (SFOC)</p>   |

| <b><u>Area of discussion 2 - Enabling mitigation ambition and implementation in industries, drawing on national and regional experience - Breakout sessions</u></b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                   |
| <p>The breakout sessions will build upon the themes and issues highlighted during the scene-setting presentations and panel discussion on enablers, policies and means of implementation for decarbonizing industries, drawing on national and regional experience. In the breakout sessions, participants will explore policies and measures and means of implementation that can enable mitigation ambition and implementation in industries, drawing on national and regional experience. Further details on the breakout session round will be communicated in due course.</p> <p>The breakout sessions will be organized in two consecutive rounds, with two groups convening in parallel during each round. Each of the two breakout groups will focus on a distinct thematic area, drawn from the preceding scene-setting presentations and panel discussions. Participants will stay in the same room through the breakout sessions. After the first breakout discussion, facilitators will rotate to the other room. This approach will allow all participants to participate in both breakout discussions and contribute to both themes. Each round of discussion will run for approximately 80 minutes with a short break in between to allow facilitators to switch between breakout rooms. Facilitators will keep time and inform about the program. During the breakout discussion participants will have an opportunity for interactive engagement.</p> <p>Guiding questions for breakout groups:</p> <p><b><u>Theme 1: Finance, technology development and transfer, and capacity-building</u></b></p> <ul style="list-style-type: none"><li><i>What best practices and actionable solutions have been effective in your country or region in mobilizing and accessing finance, including but not limited to carbon markets and carbon pricing, technology development and transfer, and capacity-building, including with respect to workers, skill development and just transitions, to support mitigation action in industries, in line with national priorities and circumstances?</i></li><li><i>What challenges and barriers have been encountered in mobilizing and scaling finance, technology deployment, or capacity-building, and what approaches have helped or could help to address these barriers?</i></li></ul> <p><b><u>Theme 2: Governance and policy</u></b></p> <ul style="list-style-type: none"><li><i>What are the best practices and actionable solutions from your national or regional experience with respect to governance and policy frameworks, including but not limited to integrating industrial decarbonization into broader national strategies and plans, that have proven effective in enabling and implementing mitigation action in industries and what lessons have emerged from their application?</i></li><li><i>What related challenges and barriers have arisen in practice and what practical solutions or approaches have helped or could help to address them?</i></li></ul> |                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                   |

| 15:45 – 18:00<br>Conference Hall | <p><b>Case studies and perspectives on financing mitigation in industries followed by Q&amp;A</b></p> <p><i>This session will showcase real examples and case-studies of mitigation actions where public finance, blended mechanisms, and support from global funds have successfully improved bankability and accelerated development. These examples include those implemented through collaborative efforts between financial institutions and countries. Each example and case study will be jointly presented by key investment partners and their host country, while offering diverse regional perspectives. The presentations will illustrate innovative investment approaches, enabling policy frameworks, and key lessons learned in advancing mitigation action in industries.</i></p> <p><b><u>Presentations</u></b></p> <ul style="list-style-type: none"> <li>• <b>Hyunkeong Kim</b>, Executive Director, Korea Institute of Energy Technology Evaluation and Planning (KETEP)</li> <li>• <b>Karin Wessman</b>, Head of Sustainability &amp; Country Analysis, Swedish Export Credit Agency (EKN) (<i>virtual</i>)</li> <li>• <b>Rémy Ruat</b>, Climate Change Specialist, Global Environment Facility Secretariat (GEF) (<i>virtual</i>)</li> <li>• <b>Saarthak Khurana</b>, Associate Director, Climate Policy Initiative (CPI) (<i>virtual</i>)</li> <li>• <b>Simon Benmarraze</b>, Head, Energy Planning and Modelling, International Renewable Energy Agency (IRENA) and <b>Dato' Leong Kin Mun</b>, Malaysia</li> <li>• <b>Tomoko Furusawa</b>, Head of Office, UNEP Climate Technology Centre and Network (CTCN), Partnership and Liaison Office (PALO) and <b>Diana Alejandra Quezada Avila</b>, Senior Officer, Global Green Growth Institute (GGGI)</li> </ul> |
