

Belém Mission to 1.5

Consultation event with Parties and non-Party stakeholders during the 2026 June Climate Meetings

Date 12 June 2026, 16:30-18:00 CEST

Location Plenary room New York, WCCB, Bonn, Germany

Context

At COP30 in Belém, Parties came together to decisively transition to a new era focused on implementation. As part of the Global Mutirão decision, the Belém Mission to 1.5 was conceived, aimed at enabling ambition and implementation of nationally determined contributions (NDCs) and national adaptation plans (NAPs), to reflect on accelerating implementation, international cooperation and investment in NDCs and NAPs across mitigation and adaptation.

Parties entrusted the COP31, COP30 and COP29 Presidencies to steward the Belém Mission to 1.5 process, and we -Türkiye, Australia, Brazil and Azerbaijan – are collaborating closely to deliver on the mandate.

The Belém Mission to 1.5 involves a series of activities and engagements throughout 2026 focused on identifying key opportunities to enable and accelerate the ambition and implementation of NDCs and NAPs, as well as reflecting on ways to enhance international cooperation and investments in those climate plans.

The Mission is shaped through submissions, consultations and exchanges with Parties, industry, financial actors, civil society, academia and all interested stakeholders. We have already invited all Parties and other actors through a call for submissions to contribute their knowledge, perspectives and expertise in support of this initiative and we are looking forward to their inputs.

Throughout 2026, we are actively engaging with all stakeholders and ensure inclusive and transparent consultations through holding convenings to collectively shape the Belém Mission to 1.5, including at major international meetings.

The Belém Mission to 1.5 will culminate in a report released ahead of COP31, outlining key opportunities, barriers, and actionable solutions to keeping 1.5°C within reach and strengthening adaptation and resilience in a changing world.

Scope of the consultation event

To inform the Belém Mission to 1.5 and complement the submissions, we invite all Parties and non-Party stakeholders participating at the sixty-fourth sessions of the subsidiary bodies of the UNFCCC to help jointly shape the Belém Mission to 1.5 and share their expectations, expertise and perspectives.

Parties and non-Party stakeholders are invited to focus their interventions along the following guiding questions:

Advancing the Belém Mission to 1.5 substantially

- What action areas and solutions have the highest impact potential to support the submission, ambition and implementation of NDCs and NAPs?
- What is required to further strengthen international cooperation to enhance ambition and enable the effective implementation of NDCs and NAPs?

Next steps for the Belém Mission to 1.5

- What do you hope the Belém Mission to 1.5 can achieve?
- What convenings and activities in 2026 could best support this?

Format of the consultation event

Setting the scene

- Remarks from the COP29, COP30 and COP31 Presidencies
- Update from the secretariat on NDCs and NAPs

Interventions from Parties and non-Party stakeholders

Closing reflections for the Belém Mission to 1.5
