

## Implementation monitor of the rolling plan of action of the expert group on action and support for 2021- 2024

| <i>Scope of work as per the terms of reference of the expert group on action and support</i>   | <i>Products/outputs</i>   | <i>Indicative time frame for producing outputs</i>  | <i>Indicative steps towards delivering products/outputs</i>  | <i>Status as at 8 April 2025</i>   |
|--|---|---|--|--|
| <p>a.1) Activities referred to in paragraph 37 of decision 2/CMA.2: Executive Committee to further engage and strengthen its dialogue with the SCF by providing input in line with decision 2/CP.19, paragraph 5(c)(ii), to the SCF when, in accordance with its mandate, it provides information, recommendations and draft guidance relating to the operating entities of the Financial Mechanism under the Convention and the Paris Agreement, as appropriate<br/>Co-leads: Diann Black-Layne, Randy Caruso</p> | <ul style="list-style-type: none"> <li>Written inputs to draft guidance relating to the operating entities of the Financial Mechanism under the Convention and the Paris Agreement, as appropriate, on financial matters related to loss and damage (inputs to be forwarded to the Executive Committee)</li> </ul>  | <p>Aligned with the annual process and timeline of the SCF providing inputs to the draft guidance (usually in September–October each year)</p>    | <ul style="list-style-type: none"> <li>Compile written inputs from members of the expert group on action and support on the basis of the products/outputs under (a.2)–(f) of this rolling plan of action</li> <li>Consider this matter under a standing agenda item during regular meetings of the expert group on action and support with appointed SCF representatives of Parties included in Annex I to the Convention and Parties not included in Annex I to the Convention</li> </ul> | <p>Two inputs were submitted. See <a href="#">first input</a> submitted in 2022 and <a href="#">second input</a> submitted in 2023.</p>  |
| <p>a.2) Activities referred to in paragraph 39 of decision 2/CMA.2: Executive Committee, in collaboration with the GCF, as an operating entity of the Financial Mechanism, to clarify how developing country Parties may access funding from the GCF for the development of funding proposals related to the strategic workstreams of the five-year rolling workplan of the Executive Committee, consistently with paragraph 38</p>  | <ul style="list-style-type: none"> <li>Periodic summary of the types of project funded by the GCF related to the strategic workstreams of the five-year rolling workplan and of the financial instruments used to fund them</li> <li>Compilation of lessons learned, good practices and challenges related to the GCF investments identified above</li> </ul> | <p>Initially by September 2021 and updated annually thereafter</p> <p>Initially by September 2021 and updated annually thereafter</p> <p>2022</p> | <ul style="list-style-type: none"> <li>Use the workstreams of the five-year rolling workplan as a basis for identifying GCF investments related to averting, minimizing and addressing loss and damage (with inputs from other WIM expert groups and the GCF secretariat, as appropriate)</li> <li>Compile and analyse GCF investment activities/financial instruments related to the</li> </ul>   | <p>Analysis of case studies of select projects funded by the GCF related to the strategic workstreams of the WIM Executive Committee <a href="#">published</a> in November 2024. The report analyses how developing countries have accessed funding from the GCF for activities related to loss and damage under the five thematic workstreams of the WIM Executive Committee.</p> |

*Scope of work as per the terms of reference of the expert group on action and support*

*Products/outputs*

*Indicative time frame for producing outputs*

*Indicative steps towards delivering products/outputs*

*Status as at 8 April 2025*

of that decision, and to include information thereon in its annual reports

Co-leads: Mark Bynoe, Rajiv Garg

- Range of sample funding proposals

- strategic workstreams and identify lessons learned, good practices, areas for replication and scaling up, and gaps on the basis of project reviews and information from countries and stakeholders (including via the activities set out under (d)–(f) of this draft rolling plan of action and experience and networks of members of the expert group on action and support)
- Develop and utilize user-friendly tools to help disseminate information on how developing countries may access funding from the GCF, including examples of successful GCF-funded activities (e.g. through the activities set out under (c) and (e) of this draft rolling plan of action)

b) Collection, compilation and dissemination of information on available sources of support under and outside the Convention and the Paris Agreement for activities relevant to averting, minimizing and

- Collection and mapping of available sources of support, including the GCF and other sources of support at the national, regional and global level, in a user-friendly manner, for activities related to averting,

In 2021 and on a continuous basis to integrate updates

- Conduct stocktaking of previous analyses of action and support under the WIM with a view to further understanding available sources of support, identifying possible gaps and challenges and

Initial mapping of sources of support against activities for ama loss and damage undertaken.

---

<sup>a</sup> Previous analyses include the outcomes of the 2016 SCF Forum on financial instruments that address the risks of loss and damage associated with the adverse effects of climate change; the report on the 2018 Suva expert dialogue; the 2019 joint Technology Executive Committee–WIM Executive Committee policy brief on technologies for averting, minimizing and addressing loss and damage in coastal zones; biennial assessments of the SCF; and the 2019 technical paper on the sources of and modalities for accessing financial support for addressing loss and damage.

<sup>b</sup> These technical guides shall include sections on (1) risk assessment, including long-term risk assessment, of climate change impacts; (2) approaches to averting, minimizing and addressing loss and damage associated with such risk assessment; (3) resources available for supporting such approaches; and (4) monitoring systems for assessing the effectiveness of these approaches.

<sup>c</sup> See also the activities set out under (a.2) of this draft rolling plan of action.
