

Kiribati NAP

**aka Kiribati Joint
Implementation Plan**

Challenges of NAP processes

Sea-level rise and Coastal Erosion

- Limited land availability
- Limited financial resources
- Relocation and community resilience
- International cooperation

Challenges of NAP processes

Financial Constraints for NAP Implementation

- Insufficient funding for infrastructure development
- Dependency on external funding sources

Challenges of NAP processes

Data and information gaps

- Limited availability of climate data
- Data quality and reliability
- Limited access to technology and data-sharing platforms

Challenges of NAP processes

Limited Technology and Transfer

- Limited technology infrastructure
- High cost
- Capacity building
- Technology compatibility
- Knowledge and awareness gaps
- Sustainability and maintenance
- Intellectual property rights

Challenges of NAP processes

1. Governance and Policy Coherence
2. International Cooperation and Political Support

Thank you all
