## NOTIFICATION

### Call for participation in the UNFCCC website usability survey

In April 2018, UNFCCC's main website [www.unfccc.int](http://www.unfccc.int) underwent a major overhaul. This project included the introduction of a modern content management system, the migration of thousands of pages, media files and documents from three different platforms, a completely new design and a revised information architecture.

Given its importance as a support tool to the intergovernmental process and as a vehicle to promote climate action worldwide, it is paramount to ensure that the website is closely tailored to the users' needs. After one year of operation, we would therefore like to take stock of the usability of the UNFCCC website. This stock-taking will guide further improvements and enhancements until COP25 in December and beyond.

We therefore invite all Parties, observers and other stakeholders to participate in our satisfaction survey: <https://www.surveymonkey.de/r/SB50websurvey> The completion of the survey takes approx. 10 minutes. Kindly provide your feedback **until 30 June 2019**.

Thank you for your cooperation.

Yours sincerely,

*(Signed by)*

Alexander Saier  
Chief  
Communications and Outreach

**Distribution:** To Parties and observer States to the United Nations Framework Convention on Climate Change through their national focal points and diplomatic missions accredited to the Federal Republic of Germany, as well as to United Nations Organizations and Admitted Observer Organizations
