# أولاً- مقدمة

# ألف- الولاية والمعلومات الأساسية

1- اعتمد مؤتمر الأطراف في دورته 25 برنامج عمل ليما المعزز الخماسي السنوات بشأن المسائل الجنسانية وخطة عمله الجنسانية وبالإضافة إلى ذلك، أحاط مؤتمر الأطراف علماً بالتقرير التوليفي الأول عمّا أُحرزَ من تقدم في إدماج المنظور الجنساني في عمليات الهيئات المنشأة (2)، الذي جاء فيه أن عدداً متزايداً من الهيئات المنشأة في إطار اتفاقية المناخ تقرّم تقارير عن المسائل الجنسانية، وشجع الهيئات المنشأة على مواصلة بذل مزيد من الجهود في هذا المجال(3).

2- وأحاط مؤتمر الأطراف 26 علماً بالتقرير التوليفي الثاني عن التقدم المحرز في إدماج منظور جنساني في عمليات الهيئات المنشأة (4) وعن جهودها المبذولة في سبيل إضفاء الطابع المؤسسي على إدماج ذلك المنظور في عملها، وشـجع الهيئات المنشأة على مواصلة بذل المزيد من الجهود في هذا المجال وعلى زيادة التنسيق والاتساق في إطار هذا العمل (5).

6- وأحاط مؤتمر الأطراف 27 علماً مع النقدير بعمل الهيئات المنشأة في سبيل النهوض بالمساواة بين الجنسين وتمكين المرأة والمساهمة في تنفيذ خطة العمل الجنسانية، حتى على المستوى الوطني، ودعا الهيئات المنشأة إلى تعزيز تنفيذ خطة العمل 6).

4- ومدد مؤتمر الأطراف 29 برنامج عمل ليما المعزز بشأن المسائل الجنسانية لمدة 10 سنوات<sup>(7)</sup>، وأقر بالإجراءات التي اتخذتها الهيئات المنشأة لتنفيذ برنامج عمل ليما المعزز وخطة عمله الجنسانية<sup>(8)</sup>، وطلب إلى جميع الهيئات المنشأة أن تواصل تضمين تقاريرها المنتظمة معلومات عن التقدم المحرز في إدماج منظور جنساني في عملياتها<sup>(9)</sup>، وطلب إلى الأمانة أن تعد تقريراً توليفياً كل سنتين عن التقدم المحرز في إدماج منظور جنساني في عمليات الهيئات المنشأة (10).

#### باء - النطاق

5- يهدف هذا التقرير إلى عرض التقدم الذي أحرزته الهيئات المنشاة في إدماج الاعتبارات الجنسانية في عملها وتمكين مؤتمر الأطراف من تقييم مدى ملاءمة طريقة إعداد التقارير الحالية لرصد ما يُحرَز من تقدم في هذا المجال.

8- ويتضـــمن المرفق الأول معلومات عما أبلغت عنه الهيئات المنشـــأة في تقاريرها من تقدم في إدماج المنظور الجنساني في الفترة 2023-2024<sup>(11)</sup>، بينما يقدم المرفق الخامس ملخصاً لتلك المعلومات في شـكل جداول. ويعرض المرفقان الثاني والثالث كيفية إبلاغ الفريق العامل التيسـيري لمنبر المجتمعات المحلية والشـــعوب الأصـــلية واللجنة الانتقالية في تقارير كل منهما عن إدماج منظور جنســاني في عملياتهما. ويقدم المرفق الرابع لمحة عامة عن الغرض من الهيئات المنشـــأة قيد النظر ووظائفها وتقاريرها المنتظمة.

# جيم - الإجراء الذي يمكن أن يتخذه مؤتمر الأطراف

9- قد يرغب مؤتمر الأطراف في القيام بما يلي:

- (أ) أن يحيط علماً بالتقدم الذي أحرزته الهيئات المنشأة في إدماج الاعتبارات الجنسانية في مسارات عمل كل منها، وبالجهود الفردية التي تبذلها كل منها لأجل إضفاء الطابع المؤسسي على هذا الإدماج في عملها؛
- (ب) أن ينظر في هذا التقرير والتقارير التوليفية السابقة (13) في تقديم المزيد من التوجيهات للهيئات المنشأة بشأن إدماج الاعتبارات الجنسانية في مجالات عمل كل منها؛
- (ج) أن يدعو الهيئات المنشاة إلى النظر في الممارسات الجيدة المحددة في هذا التقرير والتقرير التوليفي السابق فيما يتعلق بإدماج المنظور الجنساني في عملياتها وتقاريرها وإلى تضمين تقاريرها السنوية معلومات عن كيفية تحسين محتوى وهيكل تقاريرها في هذا المجال؛
- (د) أن يدعو الأطراف إلى النظر في هذا النقرير والتقارير التوليفية السابقة عند وضع خطة عمل جنسانية جديدة (14).

<sup>(11)</sup> ليس لدى الفريق العامل التيسيري لمنبر المجتمعات المحلية والشعوب الأصلية واللجنة الانتقالية تغويض لتقديم تقارير منتظمة إلى هيئات الإدارة. ولم يستند استعراض تقارير كل منهما عن التقدم المحرز في إدماج منظور جنساني في عملياته إلا إلى تقرير الغريق العامل التيسيري إلى الدورة 60 لهيئة المشورة (انظر المرفق الثاني للاطلاع على التفاصيل) وتقرير اللجنة الانتقالية إلى الدورة 28 لمؤتمر الأطراف والدورة 5 لمؤتمر/اجتماع أطراف باريس (انظر المرفق الثالث للاطلاع على التفاصيل).

<sup>(12)</sup> يركز هذا التقرير على إدماج الاعتبارات الجنسانية في مسارات عمل الهيئات المنشأة. وتشمل الجوانب ذات الصلة الدور الهام الذي يمكن أن تؤديه الهيئات المنشأة، بصفتها هيئات مقررة رئيسية، في مناصرة دور المرأة في صنع القرارات المتعلقة بالمناخ وفي جميع السياسات والإجراءات المتعلقة بذلك. وترد في المرفق الأول إشارات الهيئات المنشأة في تقاريرها الدورية إلى جهودها المباشرة لتحقيق التوازن بين الجنسين والشمولية الجنسانية، بينما ترد في المرفق الخامس فقط الإشارات المتعلقة بالنوع الاجتماعي في سياق عضوية الهيئات.

Corr.19/8 ر13)، FCCC/CP/2021/5، وFCCC/CP/2021/7، وFCCC/CP/2021/7، وFCCC/CP/2021/7، وFCCC/CP/2021/7.

<sup>(14)</sup> انظر المقرر 7/م أ-29، الفقرة 13.

# ثانياً - موجز تقدم الهيئات المنشأة في إدماج منظور جنساني في عملياتها

10 لم يتغير عدد الهيئات المنشأة التي أشارت إلى المسائل الجنسانية في تقريرها العادي إلى هيئات إدارتها، فظل عددها 13 هيئة في الفترة ما بين عامي 2019 و 2021، وانخفض في عام 2022 من 20 هيئة إلى 12 هيئة، وارتفع في عام 2023 إلى 13 هيئة، ثم ارتفع إلى 14 هيئة في عام 2024. ولم يتغير عدد الهيئات المنشاة التي أحرزت تقدماً في إدماج منظور جنساني في عملياتها وعملها الموضوعي، إلى جانب تحسين التوازن بين الجنسين في عضويتها، فكان عددها 7 هيئات في الفترة ما بين عامي 2019 و 2020، ثم ارتفع إلى 11 هيئة في عام 2021، ثم انخفض إلى 10 هيئات في عام 2022، وظل على حاله حتى عام 2024.

11- وفي عامي 2023 و2024، لم تشر إحدى الهيئات المنشاة في تقاريرها الدورية إلى النوع الاجتماعي ولم تُظهر خمس هيئات منشاة في تقاريرها الدورية أي تقدم في إدماج منظور جنساني في عملياتها وعملها الموضوعي.

12- وقدم ما مجموعه خمس هيئات منشأة توصيات متعلقة بالنوع الاجتماعي إلى هيئات الإدارة، أربع منها في عام 2023 وأربع في عام 2024.

13 وفي حين لم يطرأ تغيير كبير في عدد الهيئات المنشأة التي قدمت تقارير عن النوع الاجتماعي في فترة الإبلاغ الحالية، فقد لوحظ شيء من التحسن الواضح في جوهر المعلومات المبلغ عنها، مما يشير إلى التزام الهيئات المنشأة المستمر بمعالجة الاعتبارات الجنسانية. وعلى وجه الخصوص، أظهرت الهيئات المنشأة التي وضعت نهجاً وأهدافاً ومؤشرات تقدم لإدماج المنظور الجنساني في عملها التزاماً فعلياً بإدماج المنظور الجنساني في تقاريرها. وفي حين توسعت معظم الهيئات في الإبلاغ عن النوع الاجتماعي في تقاريرها، حيث قدمت المزيد من التفاصيل عن أنشطتها ومخرجاتها المتعلقة بالنوع الاجتماعي مقارنة بفترة الإبلاغ السابقة، فإن مستوى التفصيل لم يتغير لدى البعض منها. وتحتوي تقارير إحدى الهيئات عن إدماج المنظور الجنساني في عملياتها على تفاصيل أقل بكثير مما جاء في تقاريرها السابقة.

# ثالثاً - التحديات المشتركة والممارسات الجيدة وفرص التحسين فيما يتعلق بإدماج المنظور الجنساني وتقديم تقاربر عنه

14- بلَغت الهيئات المنشاة مراحل مختلفة في إدماج منظور جنساني في عملها وفي تقديم تقارير عنه. وفي حين أحرزت بعض الهيئات تقدماً وتحدثت عنه في تقاريرها، فإن من الصعب تبين ما إذا أحرزت هيئات أخرى أي تقدم في هذا المجال. غير أن مستوى الشفافية والتخصيص في التقارير يتزايد.

15- ولا تزال التحديات المشتركة والممارسات الجيدة والفرص التي حددت في الاستعراض الخاص بهذا التقرير عموماً هي نفسها المبينة في التقرير التوليفي للفترة 2021–2022. وبصورة عامة، أظهرت الهيئات المنشأة مرة أخرى التزاماً متزايداً بإدماج منظور جنساني في عملها، ولكنها مالت مرة أخرى إلى الإدلاء ببيانات عامة غير مدعمة بالأدلة حول التقدم المحرز في إدماج النوع الاجتماعي بدلاً من الإبلاغ عنه بطريقة ذات مغزى (16). وبطبق عدد متزايد من الهيئات المنشأة الممارسات الجيدة التي سبق تحديدها

<sup>(15)</sup> تختلف مجموعة الهيئات المشمولة بهذا التقرير عن تلك المشمولة بالتقارير التوليفية السابقة بسبب إنشاء هيئات جديدة وإنهاء هيئات أخرى؛ لمزيد من المعلومات، انظر المرفق الأول.

<sup>(16)</sup> FCCC/CP/2023/5، الفقرتان 15 و 16.

لإدماج المنظور الجنساني في عملها (17) والممارسات الجيدة للإبلاغ عن إدماج المنظور الجنساني (18). ويبدو أن التحديات التي سبق تحديدها في إدماج المنظور الجنساني في عمل الهيئات المنشأة والإبلاغ عن إدماج المنظور الجنساني (19) آخذة في التراجع من حيث الحدة والانتشار رغم أنها لا تزال مشكلة لدى بعض الهيئات المنشأة.

- 16 ومِن الممارسات الجيدة الناشئة فيما يتعلق بإدماج المنظور الجنساني ما يلي:
- (أ) إشراك جهات التنسيق الوطنية المعنية بالمساواة بين الجنسين وتغير المناخ بوصفها من الجهات الرئيسية صاحبة المصلحة في تنفيذ خطط العمل وتنفيذ الولايات(20)؛
- (ب) التفكير في كيفية إدماج المنظور الجنساني في عملها، وذلك مثلاً في التقارير المقدمة بشأن التقدم المحرز والتحديات والثغرات والأولويات المتصلة بتنفيذ خطة العمل الجنسانية (21) وإدراج المنظور الجنساني باعتبارها جزءاً من تقييمها الذاتي (22)؛
  - (ج) تقييم مدى إدماج النوع الاجتماعي في المخرجات المختلفة والإبلاغ عن ذلك<sup>(23)</sup>.
- 17 وقد ترغب الهيئات المنشأة في النظر في الخيارات المعروضة في التقرير التوليفي السابق (<sup>24)</sup> إنْ لم تكن قد نُفذت بالفعل، لأجل تعزيز وضـع التقارير والتمكين من تتبع وفهم التقدم الذي تحرزه في إدماج المنظور الجنساني في عملياتها، وهذه الخيارات هي التالية:
- (أ) إدراج فرع عن المنظور الجنساني تيسيراً للتعرف على التقارير المتعلقة بالمسائل الجنسانية والتقدم المحرز فيها، لا سيما بالنسبة للتقارير ذات النطاق الواسع، التي تتضمن معلومات عن الترتيبات المؤسسية الحالية والنهج المتبع في إدماج المنظور الجنساني. ومن الممكن إدراج معلومات مفصلة عن الأنشطة في هذا الفرع والإشارة إليها في مكان آخر أو الإشارة إليها في هذا الفرع وتوضيحها في مكان آخر. وينبغي، في أمثل الأحوال، ألا تنحصر المعلومات عن المسائل الجنسانية في قسم مكرس لها؛ وينبغي إدراج معلومات في الفرع المناسب عن الأنشطة أو المواضيع التي تشكل فيها المسائل الجنسانية اعتباراً من ضمن عدة اعتبارات أخرى؛
- (ب) إعداد التقارير بطريقة شاملة ومنظمة، وحيثما يشار إلى نفس المعلومات أو عندما تفصّل نفس المعلومة في أقسام مختلفة من التقرير، توضيح أن المعلومة ترد مرّتين تجنباً لاحتمال إعطاء فكرة خاطئة عن نطاق الأنشطة ذات الصلة بالنوع الاجتماعي؛
- (ج) ضمان الوضوح والفائدة بتقديم معلومات عن كيفية إدماج المنظور الجنساني؛ وتفصيل النهج؛ والإبلاغ في ضوء خطط كل هيئة أو التزاماتها أو أطرها؛ والتمييز بوضوح بين الإجراءات المقرر اتخاذها وتلك المتخذة بالفعل؛

<sup>(23)</sup> انظر المرفق الأول، الفقرة 124.

FCCC/CP/2021/5 ، الفقرة 101، و FCCC/CP/2021/5 ، الفقرة 23

- (د) ضمان أن تكون التقارير دقيقة ومفيدة عن طريق تجنب الصياغات الغامضة والبيانات التي لا أساس لها أو إدراج وصف عام للجهود المبذولة؛
- (ه) تقديم تقارير متسقة وتجنب حالات إسقاط المعلومات الواردة في تقارير سابقة أو شرحها لأجل توضيح أين تقدمت الأنشطة (المقرر تنفيذها) أو أين توقفت؛
- (و) التفكير بروح نقدية في درجة تفصيل المعلومات وتصنيفها، فيما يتعلق مثلاً بمخصصات التمويل؛
- (ز) ضمان الشفافية وإمكانية تتبع العمل المتعلق بالمسائل الجنسانية، وكذلك معالجة الحد الأقصى لعدد الكلمات في التقارير الرسمية من خلال الربط المستمر بالموارد الخارجية والمعلومات الإضافية ذات الصلة، كتلك الواردة في تقارير الاجتماعات والمنتجات المعرفية والتقارير الرسمية.

- 4. The AC report to COP 29 and CMA 6<sup>8</sup> in its subsection on integrating gender considerations in the section on promoting overarching coherence and collaboration, notes that it had already agreed to incorporate gender considerations into all its activities and pursued efforts to this effect through:
- (a) The preparation of a policy brief on progress, good practices and lessons learned in the application of traditional knowledge, knowledge of Indigenous Peoples and local knowledge systems in adaptation, by the AC NAP task force, that emphasizes the need to consider traditional gender roles in developing and implementing gender-responsive adaptation action that is based on traditional, Indigenous and local knowledge, values and norms in order to ensure that efforts to achieve gender equality and empowerment of women are culturally sensitive;<sup>9</sup>

- (b) The organization and delivery of a training session at the 2024 NAP Expo, in collaboration with the LEG, targeting vulnerable groups, including women. The report states that these sessions address obstacles, needs and gaps related to NAP implementation, and that information was shared on good practices in integrating considerations of gender equality and women's empowerment into NAPs. The trainings are also referred to in the subsection on adaptation planning and implementation in the section on progress in implementing the flexible workplan of the AC for 2022–2024;
- (c) The inclusion of information on national gender-responsive adaptation strategies and actions in the interactive country profiles on the AC's online portal on the state of adaptation action by Parties to the UNFCCC;<sup>10</sup>

- (f) The moderation of the technical dialogue on financing for a gender-just transition during the thematic day on gender equality, finance, trade and accountability at COP 28 by one of the AC Co-Chairs. This event is also mentioned in the AC report's subsection on meetings and events in the section on organizational and procedural matters.
- 5. In the same section, the AC reported to have nominated three female and one male expert gender focal points.
- 6. The annex to the report contains the flexible workplan of the AC for 2025–2027, which indicates that the AC will continue taking into consideration the mandate for constituted bodies to continue to include in their regular reports information on progress towards integrating a gender perspective into their processes and enhance implementation of the gender action plan.

#### **B.** Progress

- 7. In 2023–2024 the AC continued the established practice of including a section in its regular report on integrating gender considerations into its workplan. The body continued to provide information on its significant efforts to progress in integrating a gender perspective into its work.
- 8. Unlike in its 2021 report, the AC did not include gender-disaggregated data on the composition of speakers in its events in the 2023 or 2024 reports. <sup>13</sup> Nevertheless, the nomination of expert gender focal points, as reflected in the 2024 report, is noteworthy.
- 9. The reporting simultaneously claims the mainstreaming of gender across all its activities and highlights some outputs that explicitly reflect this integration. This creates a perceived information gap that could be addressed by strengthening documentation, specificity or adjusting framing.

#### A. Reporting

#### 1. 2023

- 10. The AFB report to CMP 18 and CMA 4<sup>14</sup> in its subsection on gender equality and the empowerment of women, under the section Medium-Term Strategy (2023–2027) of the chapter work undertaken during the reporting period, states that advancing gender equality and the empowerment of women and girls is one of the four cross-cutting themes of the first Medium-Term Strategy and that progress was made in implementing the updated AF gender policy and gender action plan. It further states that:
  - (a) Gender-related training events were held during the reporting period, including:
  - (i) A session during the annual climate finance readiness seminar for NIEs;
  - (ii) A webinar for IEs on the updated AF gender policy and the updated guidance document for IEs on compliance with the AF gender policy;
  - (iii) A webinar for NIEs on available financial and technical support related to gender mainstreaming;
  - (iv) A session at the enhanced direct access workshop for NIEs on how to integrate gender considerations into the design of enhanced direct access proposals, how to prepare and implement gender-responsive budgeting and how to report gender progress in projects using the project performance report template;
- (b) During the reporting period, the pilot phase of application of the AF gender scorecard commenced. The scorecard was developed with the aim of enhancing the Fund's monitoring of the implementation of its gender policy across its project and programme portfolio through facilitating data and information collection and analysis. The gender scorecard will be applied to projects and programmes at two stages: (1) at entry and (2) during implementation and at exit. The report highlights that the results of the gender scorecard will be included in the 2024 annual performance report of the AF;
- (c) Work continued on improving the AF gender-responsive operational framework, including policies and operational guidelines; the updated AF gender policy<sup>15</sup> and the updated guidance document for IEs on compliance with the AF gender policy<sup>16</sup> were translated into French and Spanish;
- (d) The annual performance report of the AF for fiscal year 2022 <sup>17</sup> provides information on gender-sensitive and -responsive interventions in some projects approved during fiscal year 2022;
- (e) The body continued collaboration on gender considerations with partner organizations, including other climate funds and the UNFCCC secretariat. The Vice-Chair of the AFB participated in the mandated dialogue between the chairs of UNFCCC constituted bodies on progress in integrating a gender perspective into their processes at SB 58.
- 11. #### A. Reporting

#### 1. 2023

34. The CGE report to SBI 59<sup>28</sup> presents information on gender balance of technical experts who conducted the technical analysis of biennial update reports as 46 per cent women and 54 per cent men. It also presents information on the number of women and men participants in each of the three regional hands-on training workshops, and underlines that the CGE continued to encourage the participation of women through the letter inviting nominations for participation of national experts in the regional hands-on training workshops. The report further notes the CGE participation in the dialogue among the Chairs of the constituted bodies on progress in integrating a gender perspective into their processes held at SB 58.

#### 2. 2024

35. # VI. Climate Technology Centre and Network Advisory Board

#### A. Reporting

#### 1. 2023

- 37. The joint chapter of the joint annual report of the TEC and the CTCN for 2023<sup>31</sup> notes that the bodies collaborated to develop a roster of gender and climate change technology experts. It further mentions that the TEC, the CTCN and their secretariats engaged in regular exchanges and collaborated intersessionally to ensure coordination and coherence of work under the Technology Mechanism. This included the TEC and CTCN exchanging information across areas of work, inter alia on gender-responsive urban mobility.
- 38. The annex to the report presents draft joint key messages and recommendations of the TEC and the CTCN on technology and nationally determined contributions. The TEC and the CTCN indicate the existence of various examples from different regions and country contexts where the uptake of technologies directly supports the implementation of NDCs, including gender-responsive and effective stakeholder engagement approaches. Further, the TEC and the CTCN recommend that the COP and the CMA encourage Parties to stimulate the uptake of technologies in support of NDC implementation by:
- (a) Fostering gender-responsive, inclusive, participatory and equitable approaches that consider the needs, priorities, knowledge and capacities of all technology stakeholders; generate awareness of technology benefits; and foster stakeholder engagement and buy-in regarding processes and technologies. The bodies stressed that, in particular, technology uptake needs to lead to a just transition, protect workers, communities, Indigenous Peoples and women, ensure a more socially equitable distribution of benefits and risks, and foster leapfrogging to near zero emission or low-emission climate technologies, which are in line with meeting the targets of the Paris Agreement;
- (b) Supporting academia and civil society, including women, youth and Indigenous Peoples organizations, that work with local and national governments on addressing barriers to technology uptake towards the achievement of NDC targets, including by strengthening national systems of innovation.
- 39. The chapter on activities and performance of the CTCN includes various references to gender:
- (a) In the subsection Advisory Board meetings and membership, the body highlights that the board endorsed the updated gender policy and action plan for 2023–2025, developed with support from the women and gender constituency to strengthen mainstreaming of gender-responsive approaches across CTCN activities;
- (b) In the subsection on promoting endogenous and gender-responsive technologies and harnessing Indigenous People's knowledge; under the section on enabling environments and capacity-building, the body notes that a gender perspective must be integrated into the design of all technical assistance projects, including through gender analysis and the appointment of a gender expert. It notes the example of an assessment of the gender division in Mongolia, in relation to involvement in livestock farming, to prioritize necessary livestock interventions, where data on the percentage of technical assistance supported by a gender analysis and expert, along with their resulting outcomes and impacts, was lacking. It indicates that this gap will be addressed through the updated monitoring and evaluation framework and the updated gender policy and action plan;

<sup>31</sup> FCCC/SB/2023/3.

(c) In the subsection collaboration with children and youth and women and gender constituencies, under collaboration and stakeholder engagement, the CTCN mentions its support for the 2022 Gender Just Climate Solutions Awards, disseminating information thereon through its Network and providing access to a year-long mentoring programme for the winners; and having served on the jury to select the award winners for 2023.

#### 2. 2024

- 40. The joint chapter of the joint annual report of the TEC and the CTCN for  $2024^{32}$  notes that the bodies continued to collaborate on joint activities including the operationalization of the gender and climate technology expert roster,<sup>33</sup> mentioned in paragraph 37 above, and further elaborated that it constituted an online database of international professionals, local experts and Indigenous Peoples with recognized expertise in the area of gender equality and climate technology, which 95 experts had joined as at September 2024.
- 41. In the chapter on activities and performance of the CTCN:
- (a) In the subsection on promoting gender-responsive and endogenous technologies and harnessing Indigenous Peoples' knowledge, under the section enabling environments and capacity building, the body notes that, following the endorsement of the new CTCN gender policy and action plan 2023–2027 in September 2023, annual gender workplans were being developed and monitored.<sup>34</sup> A CTCN gender assessment and action plan was introduced during the development of technical assistance response plans to ensure that gender mainstreaming is integrated from the outset and carried throughout implementation of projects. Furthermore, the percentage of the budget for technical assistance projects dedicated to gender mainstreaming has increased from 1 to 5 per cent under the new policy. Gender funds support, inter alia, the hiring of gender experts and the development of gender policy briefs, as, for example, in the technical assistance project completed in Georgia;
- (b) In the same subsection, the CTCN mentions having actively promoted the Technology Mechanism gender and climate technology expert roster, including by referring to it in the technical assistance request template and encouraging Network members and national designated entities to engage experts from the roster;
- (c) In the subsection collaborating with UNFCCC constituted bodies and constituencies, under collaboration and stakeholder engagement, the CTCN notes that, as part of its ongoing collaboration with the UNFCCC women and gender constituency, the CTCN supported the 2023 Gender Just Climate Solutions Awards, disseminating information thereon via the Network and providing access to a year-long mentoring programme to the winners, and served on the jury to select the award winners for 2024 CTCN.
- 42. Annex II to the report presents the CTCN technical assistance projects completed during the reporting period for each area of system transformation. Under the water-energy-food focus, the project "Solar based irrigation for women's empowerment -"pay as you irrigate" as a means of water management and food security in Mozambique (Adaptation Fund Climate Innovation Accelerator)" was finalized in Mozambique, under the Adaptation thematic area. Under the area of building and infrastructure, the project "Designing nature-based solutions with an ethnic and gender-equity approach, to increase the resilience of rural mountain communities in protected natural areas affected by extreme weather events in Honduras" was finalized in Honduras, under the Adaptation thematic area.

### B. Progress

43. Building on previous practice, the joint chapter of the joint TEC and CTCN reports provides information on the bodies' progress in jointly mainstreaming gender considerations

and undertaking gender-responsive action, following the institutionalization of gender mainstreaming in their work by adopting a gender policy or a structured approach to integrating gender considerations. A noteworthy development is the launch of a global roster of experts.

44. The CTCN has continued to include sections on gender-responsive engagement and endogenous and gender-responsive technologies, demonstrating commitment to a crosscutting integration of gender considerations across its work and reporting. Including references to external documents to corroborate affirmations relating to activity implementation, is a practice that could be extended to all activities, in order to further improve traceability and transparency.

- 74. Annex III to the report contains the LEG work programme for 2024–2025 which includes two activities referring to gender, namely: (i) Continue to report on progress towards integrating a gender perspective into the work of the LEG and ensure consideration of the UNFCCC gender action plan in developing the activities of the LEG; and (ii) collaborating with other constituted bodies and programmes on activities related to some areas, including gender.

<sup>&</sup>lt;sup>42</sup> FCCC/SBI/2024/5.

In response to the call for submissions in Decision 15/CP. 28, para. 2. The submission is available at https://www4.unfccc.int/sites/submissionsstaging/Pages/Home.aspx (in the search field, type "gender action plan").

- 75. The LEG report to SBI 61<sup>44</sup> mentions that the LEG considered, among other topics, the integration of a gender perspective into its work and includes a subsection on the consideration of gender in the section ongoing activities and next steps. It indicates that the LEG discussed strategies for further integrating a gender perspective into its work programme and agreed to continue raising awareness among the LDCs of the importance of ensuring a gender balance when nominating participants to attend LEG events. The LEG further agreed to invite the LDCs and relevant organizations to submit case studies pertaining to the consideration of gender in the formulation and implementation of NAPs with a view to using the information to produce an outreach publication on the matter with the support of the multi-stakeholder support subgroup.
- 76. Under the subsection training on national adaptation plans, under technical guidance and support for the process to formulate and implement national adaptation plans, the LEG noted the training on NAPs, organized with the AC and conducted during NAP Expo 2024, which focused on improving access to and mobilization of finance, developing and applying monitoring, evaluation and learning tools and addressing the needs of vulnerable groups and communities, including women, in relation to the formulation and implementation of NAPs. The LEG agreed to incorporate content and lessons learned from the training into future training.<sup>45</sup>
- 77. The LEG reiterated the opportunity for collaboration mentioned in paragraph 55 above.

#### **B.** Progress

- 78. The LEG has reported gender-disaggregated data on participation in its meetings and events in 2023 but did not continue this practice in 2024. The LEG continued to dedicate a section of its report to gender and has been identifying ways to strengthen gender considerations in its work, including mainstreaming gender in its work programme. The section on gender of the LEG reports facilitates comparison and identification of additional or missing information across reports. A noteworthy development was the submission of inputs to the review of the enhanced Lima work programme on gender and its gender action plan.
- 79. The LEG reports would benefit from more specific information on steps taken to integrate gender considerations into its work and from explicitly identifying the reports, guidelines, or technical products where gender has been integrated as well as on action undertaken to pursue opportunities for collaboration with other UNFCCC bodies.

#### 2. 2024

- 92. The PCCB report to SBI 61<sup>49</sup> includes references to gender similar to the 2023 report.
- 93. The PCCB reports electing a gender focal point in line with its gender mainstreaming standard and reaffirms its efforts mainstreaming gender into its work. #### **B.** Progress

- 96. The PCCB has demonstrated strong commitment and tangible progress in mainstreaming gender considerations across its work building on its structured and consistent implementation of the gender mainstreaming standard since 2020 and has been a model for the good practice of precisely and critically reporting on its progress, focusing on steps taken, also identifying opportunities for improvement, which enables the body to better address challenges.
- 97. In 2024 the PCCB discontinued the practice of including an annex for tracking progress of gender mainstreaming in its work and included significantly less detail on outputs, outcomes, impact and effectiveness, which has previously been helpful for monitoring and facilitated traceability, comparability and assessment of progress.
- 98. Compared to the level of detail and range of gender-related activities and outputs documented in previous reports, including the 2023 report, the 2024 report contains significantly less gender-specific information and key activities, data on gender balance, and examples of gender-responsive outputs and outcomes are less visible or absent. This shift may reflect changes in depth and breadth of gender-related implementation or reporting.
- 99. The PCCB monitored and reported detailed information on gender balance, sought feedback on inclusivity of its activities, and differentiated between those outcomes that include some references to gender and those that include a more in-depth engagement. A new development was the submission of inputs to the review of the enhanced Lima work programme on gender and its gender action plan.

It has maintained its gender mainstreaming efforts by appointing a GFP, referencing gender-balanced participation in events, gender considerations in technical work and events, and identifying how to integrate gender considerations into its workplan. The SCF currently does not report on gender-balance at its events.
- 113. Noteworthy developments in the reporting cycle were the focus on gender at the 2024 SCF Forum, the discussion of gender as a potential subtheme for the 2025 SCF Forum, the structured inclusion of gender considerations in the reports, recommendation to the COP and the CMA, and the submissions of inputs to the review of the enhanced Lima work programme on gender and its gender action plan.

- (a) Includes a subsection on gender mainstreaming, reporting to have continued mainstreaming gender in the implementation of its workplan and achieved gender balance among panellists at its events, and having appointed two GFPs for 2023;
- (b) Mentions having established 16 open-ended activity groups to support the implementation of its workplan and that representatives of all the UNFCCC observer constituencies, including the women and gender constituency, were invited to join the groups and most have done so;
- (c) Indicates having participated in the dialogue among the chairs of constituted bodies on progress in integrating a gender perspective into their processes;
- (d) Mentions having, in collaboration with the UNFCCC Gender team and the CTCN gender focal point, developed a policy brief on gender-responsive technology and infrastructure for sustainable urban mobility, to be finalized in 2024.
- 120. In the subsection challenges and lessons learned the TEC highlights that gender-balanced membership of the TEC has not yet been achieved despite COP guidance and the TEC drawing attention to the issue in the past. The body indicates it would benefit from full membership, and Parties are strongly encouraged to nominate female candidates.

#### 2. 2024<sup>75</sup>

- 121. The joint annual report of the TEC and the CTCN for 2024<sup>76</sup> includes a section on activities and performance of the TEC, with a subsection implementation of the rolling workplan for 2023–2027, where the body:
- (a) Includes a subsection on gender mainstreaming, reporting to have, with the support of its GFPs and in collaboration with the UNFCCC gender team, continued mainstreaming gender in the implementation of its rolling workplan (under activity D.4), referencing reports on TEC 28 and 29 for further details on the appointment of gender focal points and gender mainstreaming efforts, and having achieved gender balance among panellists at events organized by the TEC during the reporting period;
- (b) The TEC further mentions having published a policy brief on genderresponsive technology and infrastructure for sustainable urban mobility and provides further detail on its contents, namely that it offers insights into gender inequalities and gender-based differences in the context of urban mobility systems, presents policy options and good practices for developing, implementing and scaling up mobility technologies, infrastructure and services that support decarbonization of the transport sector while responding effectively to the needs of all members of society, as well as outlining related challenges and barriers;
- (c) Mentions having worked with 17 open-ended and ad hoc activity groups to support the implementation of its workplan and that representatives of interested UNFCCC observer constituencies, including the women and gender constituency, are members of the groups and actively contributed to their work;

Paras. 37–38 above relate to the joint work performed by the TEC and CTCN and should be considered for a full picture of the TEC's work in 2023.

<sup>&</sup>lt;sup>74</sup> FCCC/SB/2023/3.

<sup>&</sup>lt;sup>75</sup> Para. 37 above relates to the joint work performed by the TEC and CTCN and should be considered for a full picture of the TEC's work in 2024.

<sup>&</sup>lt;sup>76</sup> FCCC/SB/2024/3.

- (d) Mentions that in the area of digital technologies, the TEC has launched, in partnership with Enterprise Neurosystem, the AI Innovation Grand Challenge, and that positive consideration would be given to projects already being implemented in developing countries, particularly the LDCs and small island developing States, and led by women;
- (e) Highlights the development of knowledge products in collaboration with partners, including the policy brief mentioned in paragraph 121(a) above, based on which it developed key messages and recommendations on gender-responsive technology and infrastructure for sustainable urban mobility for consideration at COP 29 and CMA 6.
- 122. Annex I to the report presents draft key messages and recommendations of the TEC for the COP and the CMA based on the work carried out by the body in the reporting period, including the knowledge products mentioned in paragraph 121(e) above. Several recommendations make references to gender, including:
- (a) Considering the policy brief realizing early warnings for all, the TEC recommends that, to scale up innovation and fit-for-purpose technology solutions, the COP and the CMA encourage Parties, international organizations and stakeholders, as relevant, to, among others, support the integration of technologies into projects to promote local stakeholder engagement such that both low- and high-technology solutions enable the creation and consumption of risk knowledge by Indigenous Peoples; youth; female-led and community-based groups and entities, including local universities, research institutions and start-ups; and build the technical capacity of stakeholders in developing countries for enhancing reporting on, production, use of and access to risk knowledge, including by implementing targeted actions that strengthen the inclusion and build the capacity of women in technology in order to address persisting gender disparity;
- (b) Considering the policy brief on climate technologies for agrifood system transformation, the TEC recommends that the COP and the CMA encourage Parties, international organizations and stakeholders, as relevant, on this issue, to undertake accurate, robust and context-specific assessments of local agrifood systems that are inter alia gender-responsive and identify suitable and correct skills, especially for smallholders and vulnerable segments of the population, and, in particular, consider initiatives focused on equipping rural women with digital literacy and relevant skills;
- (c) Considering the policy brief on integrating hard-to-abate industries, particularly steel, cement and chemical industries, into the process of preparing and implementing NDCs for deep industrial decarbonization, the TEC highlighted that international cooperation and knowledge-sharing are catalysts for inter alia gender equality; and that there are signs of women's leadership and participation slowly increasing within industry but they are still at a low level. To enhance industrial decarbonization, particularly in hard-to-abate industries, while accelerating progress towards net zero emissions, the TEC recommends that the COP and the CMA encourage Parties to consider promoting women's leadership in industry;
- (d) Drawing from the policy brief mentioned in paragraph 121(a) above, the TEC highlighted that:
  - (i) Substantive action will be required for urban mobility to contribute to achieving the goals of the Paris Agreement and promoting sustainable development;
  - (ii) Addressing gender-based differences in travel behaviour, access to and affordability of transport, safety while using various modes of transportation and employment in the transportation sector will help achieve climate action in the sector;
  - (iii) Without consideration people of all genders, especially women, in policies and actions for achieving zero- and low-emission and climate-resilient urban mobility, they will fall short of fully contributing to achieving emission reduction targets and sustainable development and to facilitating equitable and just transitions;
  - (iv) People of different genders often have different travel needs and behaviours owing to gender roles and social norms, as well as to characteristics of individuals such as race, ethnicity, sexual orientation, gender identity, disability status and class,

which intersect to create unique dynamics and effects, necessitating gender-specific policy considerations;

- (v) There is considerable evidence that existing urban mobility systems neither provide women and gender-diverse people with the same level of access, safety, comfort and connectivity as they do for men, nor provide equal employment opportunities. This is in part because women's needs were overlooked in the design of these systems, information on women's needs was not collected when designing these systems and provisions to protect women from harassment and gender-based violence are inadequate;
- (vi) Policy options and successful initiatives relating to gender-responsive technology and infrastructure for sustainable urban mobility have been well documented, so the emphasis needs to shift towards integrating those options into policy, programme and project documents at the national, especially the city, level;
- (e) Based on the policy brief, mentioned in paragraph 121(a) above, and to accelerate the implementation and scale-up of gender- and climate-responsive technology solutions in urban mobility systems, the TEC recommended that the COP and the CMA encourage Parties, international organizations and other stakeholders, as relevant, to:
  - (i) Improve the collection, availability and use of gender and transport data for urban mobility planning that addresses climate change and social inequalities;
  - (ii) Consider implementing mutually supportive principles and measures, adopting approaches such as 'avoid-shift-improve', and participating in initiatives and using toolkits for implementing zero- and low-emission sustainable urban mobility, such as those described in the policy brief referred to in paragraph 121(a) above;
  - (iii) Raise the visibility of gender- and climate-responsive urban mobility policies in the planning and reporting instruments under the Paris Agreement and those related to sustainable development, including those by non-State actors, and highlight the need for those policies to reflect and enhance national commitments relating to sustainable urban mobility and create a coherent framework for mutually reinforcing action on climate change and sustainable mobility;
  - (iv) Foster enabling environments and supportive policy frameworks that contribute to the achievement of gender equality, for example by promoting action towards achieving sustainable development goals related to gender and the creation of greater employment opportunities for women in the urban mobility sector;
- (f) Considering the Climate Technology Progress Report 2023, to which the TEC and the CTCN contributed in the context of collaboration with UNEP Copenhagen Climate Centre, the TEC highlighted that finance flows for urban infrastructure are hampered by a 'business as usual' mindset and that it is critical to embrace a new paradigm for urban infrastructure investment that includes aggregation, green and climate financing, impact and innovation funding, and investment through a gender lens.

#### **B.** Progress

- 123. The TEC made significant progress since adopting a structured approach to integrating gender considerations into its work, built further on this progress over the past two years and continued to consistently report on gender in a dedicated section of its annual report. When reporting on gender balance, the body could consider referencing disaggregated data on participation. The practice of identifying existing challenges and lessons learned is useful to identify potential areas for improvement.
- 124. It is noteworthy that the body has included a gender perspective in several of its knowledge products, and in its reporting differentiates the degree of gender integration and has further made related recommendations to the COP and the CMA.

#### XV. Warsaw International Mechanism Executive Committee

#### A. Reporting

#### 1. 2023

125. The 2023 report of the WIM Executive Committee <sup>77</sup> includes a section on the integration of gender considerations under the chapter organizational and procedural matters. It includes information on consideration of gender as a cross-cutting issue in implementing and updating its five-year rolling workplan (2023–2027); and consideration of the goal of gender balance in selecting speakers for its events.

126. One of the addenda to the 2023 report<sup>78</sup> presents a summary of progress reports received by the WIM Executive Committee from organizations, bodies, networks and experts engaged in providing technical assistance to developing countries, and relevant to the Santiago network for averting, minimizing and addressing loss and damage associated with the adverse effects of climate change, and includes information on actions that involved gender-responsive early warning systems, received in submissions.

127. Annex I of another addendum to the 2023 report<sup>79</sup> provided information on the WIM Executive Committee's five-year rolling workplan for 2023–2027, which includes references to gender, such as the review of arrangements for designating Executive Committee members to represent the Committee vis-à-vis other bodies, including in relation to gender. It further reports that two members of the WIM Executive Committee, one from Parties included in Annex I to the Convention and one from Parties not included therein, were appointed as focal points for gender. Under recommendations, it is noted that Parties may wish to encourage the WIM Executive Committee to continue to make outputs of the WIM Executive Committee and its thematic expert groups available to broader audiences, including women, to expand the Committee's reach and to promote the technical expertise and products of its thematic expert groups.

#### 2. 2024

128. The 2024 joint annual report of the WIM Executive Committee and the Santiago network for averting, minimizing and addressing loss and damage associated with the adverse effects of climate change<sup>8081</sup>, includes a section on the integration of gender considerations under the chapter organizational and procedural matters. It includes information on consideration of gender as a cross-cutting issue in implementing and updating its five-year rolling workplan (2023–2027); and refers to the input <sup>82</sup> submitted on progress in, and possible actions going forward with regard to, ensuring the gender-responsiveness of its work and that of its thematic expert groups to inform the review of the implementation of the enhanced Lima work programme on gender and its gender action plan;<sup>83</sup> and mentions that the WIM Executive Committee would focus on gender under its standing agenda item at

The terms of reference of the Santiago network (Contained in annex I to decisions 12/CMA.4 and 11/CP.27.) provide that the Santiago network secretariat will prepare an annual report on activities of the Santiago network secretariat and network and on the performance of their respective functions and submit it to the Advisory Board of the Santiago network for its consideration and approval. The approved report will be forwarded to the secretariat to be included in a joint annual report of the Santiago network and the Executive Committee submitted to the governing body or bodies through their subsidiary bodies.

ExCom 21 on how the latest climate science can inform policymaking relevant to averting, minimizing and addressing loss and damage.

- 129. The report further includes a subsection on integration of gender considerations under the chapter on organizational and procedural matters of the Santiago network, highlighting that the Santiago network consists of a network of member organizations, bodies, networks and experts that are committed to taking into consideration gender equality and empowerment of women in their work.<sup>84</sup>
- 130. Annex I to the report lists the two Executive Committee focal points for gender.
- 131. Annex II to the report mentions a member of the Women and Gender Constituency as member of the Advisory Body of the Santiago Network.
- 132. The first addendum to the 2024 report<sup>85</sup> includes a subsection on the integration of gender considerations, under the section cross-cutting work, under the chapter progress of implementation of the workplan of the Executive Committee. It indicates that:
- (a) The WIM Executive Committee continued integrating a gender perspective into the development of its knowledge products, including:
  - (i) The report on the case studies of the projects funded by the GCF in relation to the strategic workstreams of the Warsaw International Mechanism for loss and damage;
  - (ii) The technical guide, on integrating human mobility linkages into relevant national climate change planning processes;
  - (iii) The technical paper on non-economic losses, featuring loss of territory and habitability, ecosystem services and biodiversity, and cultural heritage;
  - (iv) The compendium on comprehensive risk management approaches, volume 2;
- (b) The gender-focused discussions at ExCom 21, mentioned in paragraph 128 above, were informed by two expert briefings, one on the intersection of gender, climate and disaster risk reduction<sup>86</sup> and the other on the experience of women from three regions of loss and damage.<sup>87</sup>

#### **B.** Progress

- 133. The WIM Executive Committee continued applying the good practice of summarizing information on gender in a well-structured section of its report, while also referencing gender in other sections as relevant.
- 134. It has continued efforts to mainstream gender across its work, including in its workplan for 2023–2027. A noteworthy development is that the body now reports information on relevant outputs of the WIM Executive Committee and its thematic expert groups, such as the inclusion of gender considerations across various specific knowledge products and the dedication of a focus on gender in discussions under one of its standing agenda items. A noteworthy development was the submission of inputs to the review of the enhanced Lima work programme on gender and its gender action plan.

6- وأخيراً، تبين التوصيات المتعلقة بترتيبات التمويل الجديدة المعروضة في المرفق الثالث للتقرير أنه ينبغي إتاحة مجموعة واسعة من المصادر، بما في ذلك المصادر المبتكرة، لدعم واستكمال الترتيبات الجديدة والقائمة، بما في ذلك المصادر والأموال والعمليات والمبادرات في إطار الاتفاقية واتفاق باريس وخارجهما، وينبغي إتاحتها بطرق تضمن أن تستهدف ترتيبات التمويل الجديدة والقائمة الأشخاص والمجتمعات المحلية في أوضاع معرضة للتأثر بالمناخ (بما في ذلك النساء والأطفال والشباب والشعوب الأصلية والمهاجرون بسبب المناخ واللاجئون في البلدان النامية المعرضة بوجه خاص للآثار السلبية لتغير المناخ).

# ثانياً - التقدم المحرز

7- في حين لا توجد سوى إشارات قليلة إلى النوع الاجتماعي في تقرير اللجنة الانتقالية إلى مؤتمر الأطراف في دورته 5، فقد روعي النوع الاجتماعي إلى حد ما في توصيات اللجنة، التي تتضمن إشارة إلى أهمية مراعاة المنظور الجنساني. ويُظهر التقرير كذلك التركيز على التوازن الجنساني وتمثيل الجنسين ومشاركتهما.
