Update on the extent to which the UNFCCC core budget and budgets in the UNFCCC trust fund for supplementary activities were funded as at 31 March 2025

Note by the secretariat

Summary

This document provides an update on the extent to which the UNFCCC core budget and budgets in the UNFCCC trust fund for supplementary activities were funded as at 31 March 2025. Funding for the UNFCCC core budget for the 2024–2025 biennium, totalling EUR 74.1 million, is largely on track. The 2024 portion was fully funded, and the 2025 portion had received EUR 30.2 million, representing 81.5 per cent of its allocation. In contrast, the UNFCCC trust fund for supplementary activities, which has a biennial budget of EUR 211.0 million, had only received EUR 100.9 million, or 48 per cent of its total. The distribution of this funding has been inconsistent, with some projects receiving their full allocation from voluntary contributions and others receiving none of their allocation. Overall, while funding the core budget is progressing well, the supplementary fund remains significantly underfunded, limiting support for many important initiatives.

I. Introduction

A. Background and mandate

1. Pursuant to the UNFCCC financial procedures,¹ contributions to the UNFCCC core budget are due on 1 January of each calendar year.²
2. COP 28 approved the programme budget for the biennium 2024–2025, amounting to EUR 74,105,511, namely EUR 37,041,148 for 2024 and EUR 37,064,363 for 2025.³ CMP 18 endorsed the decision of the COP as it applies to the Kyoto Protocol.⁴
3. The COP regularly takes note of resource requirements in the trust fund for supplementary activities, and the secretariat informs the governing and subsidiary bodies at each of their sessions of budgetary implications arising from requests contained in the decisions of the governing bodies and the conclusions of the subsidiary bodies adopted at those sessions. Income to cover the cost of supplementary activities consists of voluntary contributions from Parties and non-Party stakeholders.
4. COP 29 requested the secretariat to prepare quarterly reports on the extent to which the UNFCCC core and supplementary budgets are funded in order to significantly improve the transparency of its budget management process.⁵

B. Scope

5. This document provides an update on the extent to which the UNFCCC core budget and project budgets in the UNFCCC trust fund for supplementary activities were funded as at 31 March 2025.

C. Possible action by the Subsidiary Body for Implementation

6. The SBI is invited to take note of the information presented herein and to decide on actions to be included in draft decisions on administrative and financial matters for consideration and adoption at COP 30 and CMP 20.

II. Core budget

7. Funding available under the core budget in 2024 amounted to EUR 51,483,775, which consisted of contributions made by Parties in 2024, the unspent balance of contributions made in prior years and interest gained on cash investments made by the United Nations Treasury. The core budget for 2024 was therefore fully funded as at the end of 2024.
8. Funding available under the core budget in 2025 as at 31 March 2025 amounted to EUR 30,224,560, which consisted of contributions made by Parties in 2025, the unspent balance of contributions made in prior years and interest gained on cash investments made by the United Nations Treasury. As such, 81.5 per cent of the core budget for 2025 had been funded as at 31 March 2025.

III. Trust fund for supplementary activities

9. The total of all project budgets for activities funded under the trust fund for supplementary activities for the biennium 2024–2025 is EUR 211.0 million. However, only EUR 100.9 million, or 48 per cent, of the total budget had been received as at 31 March 2025.

10. The table below presents the share of budgeted funding received for projects funded under the trust fund for supplementary activities in the biennium 2024–2025 as at 31 March 2025. The funding received varies significantly across the projects.

11. Funding in support of activities under Article 6, paragraph 4, of the Paris Agreement continued to be administered under the trust fund for supplementary activities in 2024. It was transferred in January 2025 to a newly established trust fund dedicated to funding these activities. It is therefore excluded from the table below.

^a Includes funding available for 2026 and beyond.

^b The Santiago network for averting, minimizing and addressing loss and damage associated with the adverse effects of climate change had been managed by the UNFCCC secretariat until a host for the network was selected (United Nations Office for Project Services and United Nations Office for Disaster Risk Reduction). This amount includes funds that were forwarded to the new hosts.

^c The available funding includes funding made available as loans from the trust fund for the clean development mechanism. As at 31 December 2024, USD 6.3 million of the loans had yet to be repaid to the trust fund for the clean development mechanism.
