

Subsidiary Body for Scientific and Technological Advice

Sixty-second session

Bonn, 16–26 June 2025

Agenda item 13(a)

Methodological issues

Greenhouse gas data interface

Greenhouse gas data interface

Draft conclusions proposed by the Chair

1. The Subsidiary Body for Scientific and Technological Advice (SBSTA) considered the workplan, prepared by the secretariat,¹ for further developing the greenhouse gas (GHG) data interface.²
2. The SBSTA requested the secretariat to further develop the GHG data interface using the infrastructure of the climate data hub, incorporating data and information reported by Parties under the Convention, the Kyoto Protocol and the Paris Agreement, with separate data entry labels in the interface.
3. The SBSTA also requested the secretariat to develop and publish the modules outlined in the presentation made at this session.³
4. The SBSTA further requested the secretariat to inform SBSTA on progress in developing the GHG data interface at its sixty-third session (November 2025).
5. The SBSTA decided to consider additional modules at its sixty-fourth session (June 2026).
6. The SBSTA took note of the estimated budgetary implications of the activities to be undertaken by the secretariat referred to in paragraphs 2–3 above.
7. It requested that the actions of the secretariat called for in these conclusions be undertaken subject to the availability of financial resources.

¹ In response to the request in document FCCC/SBSTA/2024/10, para. 84.
