05 Questions and discussion

CLIMATE  POLICY RADAR is a
non-profit building open databases and
AI-powered tools to support
informed action on climate and nature.

Our mission is to make data
discoverable, queryable, and usable.

MAKING GOOD DECISIONS ON CLIMATE REQUIRE ACCESS TO GOOD DATA.

But crucial information is often missing when it's most needed.

Policy data is **scattered across websites**.

Tools like ChatGPT exist, but there are issues: **hallucination**, **omission**, **lack of climate expertise**, and more.

EVEN IF YOU FIND THE RIGHT DATA, YOU OFTEN CAN'T SEE THE FULL PICTURE.

Information is buried in **inaccessible, hard-to-search formats**.

Ideas are described in **differing, complex terminology**.

Documents are in **different languages** from around the world.

ENTER CLIMATE POLICY RADAR

What we *do*

WE BUILD OPEN, SEARCHABLE DATABASES.

Our databases are free and open to support policy-making, research, and action on climate.

RESPONSIBLE, TRANSPARENT AI

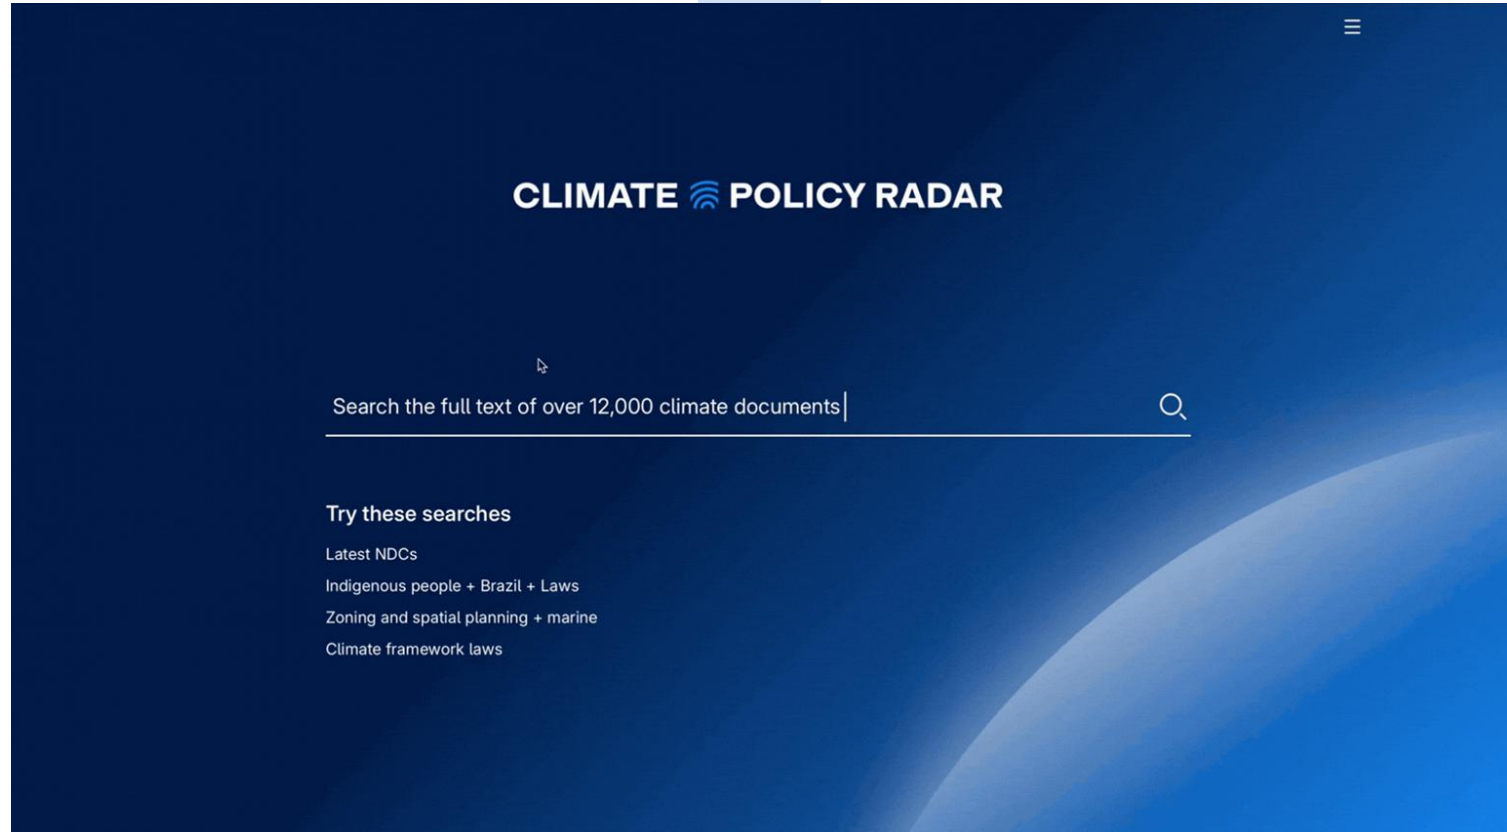

CPR's AI systems are **designed, led, and verified by humans** at every step.

We build tailored small language models that support search and are:

- Trained on **curated** climate documents
- Reviewed and **validated by experts**
- Transparent and **auditable** by design

Questions?

ACTIVITY:

TIME TO USE THE DATABASE!

- Go to app.climatepolicyradar.org
- Use the database to find out... **what targets your country's government has set on solar energy or wind energy**
- Take a few minutes to find a target for your country, share your example in the chat!
- Guiding questions:
What sort of document is this?
What target was set?
What date is the target for?

ACTIVITY: **HOW IS YOUTH REPRESENTED IN YOUR COUNTRY'S CLIMATE DOCUMENTS?**

Youth is not included consistently in climate policy.

Explore how your country's government mentions youth in climate policy!

Guiding questions:

- Where and how are young people mentioned in your country?
- What types of documents mention youth?
- Is this different in a neighbouring country?

Reconvene in 5 minutes, post your examples in the chat!
